

Did you ever dream of an affordable and manageable extranet on SharePoint Technologies?

Introducing XtraShare 2007 for SharePoint Technologies

the first AJAX-enabled, multilingual⁽¹⁾ extranet solution
for SharePoint Technologies

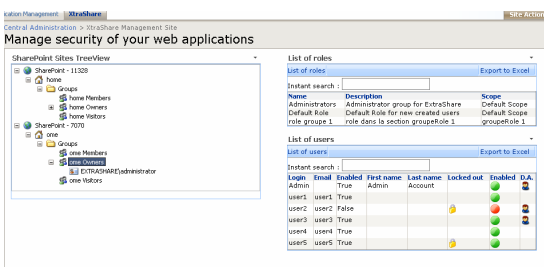

Standard Features

- Powered by ASP.NET AJAX
- Multilingual* solution
- Fully UI-based configuration (no scripting involved)
- Forms-based authentication
- Customizable Profile Properties
- Role and user management in Excel
- Self-registration ability (w/ Captcha validation)
- Password reminder and reset
- Delegated Administration
- Localized mail templates
- ... and many others!

Premium Feature

- Create your users and roles, then assign them instantly to SharePoint groups in as many sites as you wish, with a simple drag and drop operation to an Ajax-enabled treeview of all your SharePoint sites!

Interested? Download the **free**⁽²⁾ version at www.rl-soft.com
